Funding Requests:
- Bill 5: Allocation to Applied Sport Psychology
  The organization is requesting $531.39 in general expenses and $1073.00 for food costs. The funds will be used for advertisement purposes and basic supplies for their organization and to bring in guest speakers who are a part of the FSU family. Their organization works with most FSU athletic teams. Further Questions: Greinke asks how long the organization has been in service. C. Williams asks to further explain the difference between applied sport psychology organization and the sports organization. Hall asks out of the thirty people who attend their regular meetings, how many actual members of the organization are there. Nilson asks if they received the funds from COGS, will they continue their fundraising efforts in the future and will the fundraising offset the allocation from COGS. Nilson motion to fund in full. C. Williams Second. Objection: Greinke. Nilson believes the organization demonstrates effort to raise funds and the money from COGS will help the new organization. FIRST PRO: C. Williams states that they are showing initiative as a new organization by reaching out in the community for donations. FIRST CON: Greinke states that the requested food budget amount is high, and the budget for weekly snacks is without clear value, and not a justifiable use of student funds. A compromise could be made for a lesser amount. SECOND PRO: Hall agrees that the food cost is minimal for the members and the
speakers who will also be in attendance at their meetings. Nilson calls to question. Hall Second. Objection: NONE. **Bill 5 Passes 9-1-1.**

*Nilson motions to waive the rules and hear Bill 6; an allocation to Graduate Women in Science.* Syme Second.

- **Bill 6: Graduate Women in Science**  
  Hannah explains that their organization hosts several events each year where new and returning members gather to learn about the different programs offered. They also fundraise, organize webinars and co-organize events on campus. They are requesting funds for plastic ware and food. Further Questions: C. Williams asks about the new events that they are planning. Further questions: Luttrell wonders why the expense was not included in the fiscal budget. Further Questions: Greinke inquired about the previous allocation given to the organization and how was the turnout. Nilson moved to fully fund Graduate Women in Science. Clay Second. **Objection: NONE. Bill 6 Passes**
