

**MEDICAL SCHOOL COUNCIL  
RSO Funding Allocation Report**

**Meeting Date: 1/30/2023**

**Meeting Time: 11:00am**

**Meeting Location: FSU College of Medicine**

**MSC Members Present: Karl Kramer, Jacob Daniels, Frantz Flambert, Alexandra Kata, Katherine Gui, Joseph Risler, Kevin Salimi, Samantha Mankus, Alana Chang.**

<b>Name of RSO</b>	<b>Event Information Name, Date, Location, #of students impacted</b>	<b>Food</b>	<b>Clothing</b>	<b>Contractual Services</b>	<b>Travel</b>	<b>Expenses</b>	<b>Total</b>
Radiology Interest Group	RIG Interventional Radiology Guest Speaker Event FSU College of Medicine 3/23/2023 Time(s) of Event: 6-7pm EST Estimated Attendance 30	\$142.37					\$142.37
SAAAPA	Lunch and Learn with Dr. Stephen Chelko TBA 2/27/2023 Time(s) of Event: 11:30am- 12:30pm Estimated Attendance 60	<del>\$659.400</del> <b>\$669.40</b>					<del>\$659.40</del> <b>\$669.40</b>
<b>Totals</b>		<b>\$811.77</b>					<b>\$811.77</b>

Organizations receive funds for the particular conference of event, any funds not spent will be swept back to the funding council and eventually to COGS at the end of the fiscal year. COGS approval is required for all expenditures, and funds are only granted to organizations who follow policies outlined in the SGA/COGS Financial Manual, COGS Code, and SGA Statutes.

**Meeting Minutes**

(please include a breakdown of the funding request, costs, and what allocated funds are being allocated for. Should also include the vote for each request).

The Medical School Council (MSC) reserves the right to sweep any funds back to us.

If an organization wishes to use the funds for a reason other than the one they described at the meeting, they must get approval from MSC.

**DATE 1/30/2023**

**Attendance → Karl Kramer, Jacob Daniels, Frantz Flambert, Alexandra Kata, Katherine Gui, Joseph Risler, Kevin Salimi, Samantha Mankus, Alana Chang.**

Questions:

- What are the funds for?
  - We have invited a practicing Interventional Radiologist to expose students to the subspecialties of radiology, various imaging modalities, the residency application process, and on-going research in the field. This event strives to provide opportunities for students to learn about the field and inform student as how to get involved in research, shadowing, and mentorship. Through these opportunities, we hope to enable students to make informed decisions regarding a possible future career in diagnostic or interventional radiology.  
*Note: Reminded RSO that purchase is tax exempt*
  - *Note: RSO is in charge of distributing food with masks per COVID guidelines*
  - *Note: Event will be advertised via email and Nole Central. Instructed RSO to make an event flyer with the COGS logo per financial manual guidelines*
  - **Note: Approved for a total of \$142.37 (Food)**

**Questions:**

- What are the funds for?
  - Dr. Stephen Chelko will be educating us about his diagnoses and the caregiver perspective of healthcare. Dr. Chelko currently conducts research at FSU COM and his research interests are below:
 

"I study a rare inherited heart disease called - Arrhythmogenic Cardiomyopathy (ACM). You probably have heard of it by a different name on the news - Sudden Cardiac Death (SCD) in Young Athletes. Sadly, this disease is one of the most arrhythmogenic forms of heart disease and a leading cause of SCD in the young and in athletes. I use a lot of approaches to study the different signaling mechanisms that are abnormally regulated in ACM, but one main approach my laboratory uses is genetically modified mice that harbor the same pathogenic gene mutations seen in patients with ACM. Now that I have these ACM mice in hand, I test the efficacy of commercially available and FDA-approved drugs on the prevention of cardiomyopathy in ACM mice. Not only at rest, but in response to exercise. After all these drug and exercise studies I then perform functional studies (Echos and ECGs) to see if certain drugs can mitigate the deleterious impact of exercise on ACM pathogenesis. Additionally, my lab uses a variety of biochemical/molecular biology experiments such as protein, mRNA, DNA, and histology."
