 - Yes but the university mandates that computers MUST be replaced every four years
- What is the breakdown of Dell computers in packet?
 - Multiple computers purchased, probably 7. Requests list all costs per unit
- University requires the computers to be repurchased every 4 years, what would happen if we don't fund?
 - The computers would be taken off line, students would not have access to computers
- Why does Exec get Macs and more expensive computers?
 - It was what was requested, and previously maintained
- Does ITS still require groups to personally fund the computers for replacement every four years?
 - Yes, we pay ITS for port upkeep and wifi

Round Table Discussion:

- Last funded for computers in 2015
- When went to Thagard, was able to reduce the computers by about half

 - o Benefits by giving students a chance to leave a lasting legacy and the opportunity for future generations to bear witness to life here

Questions:

- Do you have a means of other funding?
 - possibly senate projects but would be better to get from sweepings because money in senate projects should be spent elsewhere
- Impact on campus:

- Are other organizations taking part in this putting in money?
 - No.
- Would you open up to request from the student body?
 - Possibly in the future.

Round Table Discussion:

- How does this impact the students? Everything inside the capsule would become a historical artifact

Attendance: Slimak, Dean, England, Haslett

Guest: Chelsea Cordek

- Applied for sweepings for \$20,000 in Expense

Questions:

- What do you feel the minimum amount required to survive would be?
 - Came in knowing PAC wouldn't get \$20,000. Any amount of money would be good to offset all the money lost throughout the semester. I was expected about \$5,000.

Round Table Discussion:

- Average of 6 requests per week up from 3 last year. This forthcoming budget allocated \$10,000 LESS than the budget we're currently in. Down from \$70,000 to \$60,000.
- There are more RSOs on campus this year, and has been an increase of marketing and promoting for funding boards
- There has been less funding for PAC then previous years, last senate projects was dipped into.

- What is the extra pay period?
 - University pays for 26.1 pay periods. We will have 27 pay periods this year.
 - University will not pay for this.
- If the flooring is not funded this year, would you request next year?
 - We need to do it. Using sweepings rather than our reserves is something we'd prefer to do. The reserve funding we have is something we want to use wisely, preparing for unforeseen circumstances with the new union. We do need to make this happen. Planned for spring break 2020.
- Do you have any average number of traffic flow for everything the union controls?
 - Usually 14,000-20,000 people per day when the old union was there.
 - Our spaces are used all the time at the moment, they're always full.
- How old is some of the technology?
 - Some of the things we have are about 11 years old. The new technology would definitely make some noticeable changes if we were able to replace things.
- Do you have the quote for the laser projectors?
 - The projectors themselves are \$1700 each
- If we were to half fund the carpet, could you use reserve funds for the other half?
 - Changing costs and alternative choices will make things difficult. We'll have to supplement things in the new union. Whatever you give us we'll use because it goes back into the campus and to the students.

Dean moves to extend time for questioning

Second by Haslett

- Is the popcorn machine broken?
 - It's pretty old...
- Is the circus something that NEEDS to be funded? Would it pose a danger to students if not funded?
 - It's safety equipment and we'd never put our students in danger, but we would need to do something.

Round Table Discussion:

- Their request is listed in priority order.
- Union manages other spaces including SSB, Circus, ASLC, etc.
- Making sure that these other facilities are on-par with the new Union when that opens.
- Special note: Circus equipment is expensive but is very important

- How would you advertise this to students?
 - We'd do another provost email and probably host 3 extended hour days doing 75 people per day
- How many subsidised passports did you give out last time?
 - All 75 that we were funded for.
 - This discount prompted a lot of students to come forward and realise they needed passports
- If we were to give you a partial amount, would you change the amount subsidised per passports or fewer students?
 - It has to be fewer students as the \$45.74 is regulated by the department of state so we can't cut that number

Round Table Discussion:

- Cheapest passport pictures in town
- SGA previously funded 75 subsidised passport fees (Only the FSU fee and pictures costing \$45.74 per passport. Student still pays the \$110 passport fee)

 - \$22,320 with new total
- Willing to partially fund EKGS, will purchase as many as possible
- Already had to relocate the charging station due to inuse
- EKGS are important to the health of students
- Dem and Rep are always out on campus for voter registration for free
- Senate resolution to work with Garnet and Gold voter registration initiative if need to cut funding
- EKGS can be purchased at any amount and still be used, while the other accounts have fixed costs
- Love idea of EKGS, proactive education while administering test
- Charging stations are nice being able to lock phones while studying
- iPad stations can be used in multiple ways such as SGA elections
- \$930 for IPAs and display

Center for Participant Education (CPE) - 10:45 AM

Attendance: Levin, Slimak, Adamyk, Dean, England, Haslett, Porter, Uddin, Webber

- Applied for sweepings for \$2,000 in Contractual, \$466.42 in Expenses, \$629.55 in Food, \$2,150 in Cloth/Award, for a total of \$5,245.97

Questions:

- Are you aware that student pubs should have a button maker press, offering cheap alternatives to making buttons?
 - That's what we are doing!
- Is Soul Veg a registered vendor with FSU?
 - yes
- Priorities?
 - Contractual services, expenses, food, t-shirts
- What are average numbers of involvement to be "full copassidy"
 - Large involvement from 1970-2011 with 30-40 students per class, up to one class a day
 - Around 2018, there was very low involvement in recent previous years, 5-10 students per class, 65 students total
 - Increase in involvement, hundreds this semester
- Who would I reach out to to be able to teach a class?
 - Email, facebook, instagram, QR code on all packets, talking with board
- What is the recent trends of engagement and involvement over the past 2-3 years
 - Went from almost no involvement to over 200 students this semester so far
- TShirts and buttons
 - 500 t shirts, 500 buttons at 1 inch, 500 buttons at 1 ½ inch
- How long would it take from interest to teaching a class for students?
 - Depends on event, depending on schedule and how much is needed to set up
- If we were unable to partially fund the speakers for the event with Students for Justice in Palestine, would the event be held?
 - Probably not

Round Table Discussion:

- Celebrating 50 year anniversary

- In contractual services, \$1,000 going to two presenters for film screenings
- Contractual service fund two for \$500 is to bring a speaker in conjunction with Students for students of Palestine
 - Check previous notes as well. Same speaker
- Contractual service fund two for \$500 is to bring a speaker in conjunction with Students for students of Palestine
 - Check previous notes as well. Same speaker
- Cut 50% in budget over the past year
- Why SJP and CPE request for the same thing
 - Uncomfortable with request

Slimak stepped out, England taking over minutes.

Sport Club Council - 11:00 AM

Attendance: Levin, Adamyk, Dean, England, Haslett, Porter, Uddin, Webber

- Applied for sweepings for \$74,573 in Expense

Questions:

- In the case that we had to make cuts, would the money be used for sports club travel or would you divvy it up to where it best fits?
 - Depends on whether we're assigned a lump sum or allocated by line item.
- What are the priorities?
 - The presentation is ranked in order of preference. Travel is number 1!
- How would you rather we distribute the money - line item or lump sum?
 - Lump sum would help with distribution.
- 1 lacrosse goal set, which team does it go to?
 - It's for the team in both practice and for games

Round Table Discussion:

- o 90% of the financial burden falls on our students just to get them through the students.
- o Requesting about \$30k to help travel to things like nationals or regionals.
- o On average 19/37 clubs attend nationals and represent the university
- o Fencing equipment is old, has been inherited from year to year and would just like to upgrade their timing equipment
- o Volleyball carts are currently ripped up and pretty much unusable, so want 2 new carts.
- o They don't have many goalies try-out so by having a set kit, they can support whoever they pick throughout the year. It's tough to rotate people through this position because of the lack of equipment. If the team could have its own set of equipment it would help.
- o Rugby balls are currently torn up and same with the practice balls which makes practicing and hosting games here difficult.
- o Go through 6-8 lacrosse nets per year. 3 practices a week and matches means they get pretty beaten. Current nets have holes and rips in them which makes scoring more difficult.
- o Current water polo goals are a little rusty and a few hinges are broken. Want to replace them rather than fix.

- Decade old rowing boats. Ours still use steel whereas most use carbon fibre. Want to upgrade and stay up-to-date with the times.
- Lowest priority (most expensive) is the row boat.
- All items are specific to the sports
- Requested lump sum allows us to fund travel and give them money so they could divide it by itself
- Possibility is to fund without proviso. Happy medium: let them know what caught our eyes in their presentation.

Campus Rec - 11:15 AM, 11:30 AM

Attendance: Levin, Adamyk, Dean, England, Haslett, Porter, Webber

- Applied for sweepings for \$85,200 in OPS, \$28,763 in Expense, \$141,811 in O.C.O., for a total of \$255,774

Questions:

- How much do you estimate in wages the automated field system would save?
 - About 25%. Both OPS wage savings and time savings. Would save the most money on paint. Student jobs wouldn't be eliminated. There's still enough tasks for them to do.
- Considering your request is more than half of what we have, would you prefer we have proviso outlining specific line items or one lump sum?
 - We'd prefer a lump sum as that's how we operate with our main budget. Also lets us half fund things.
 - Even if there's no proviso, we'd love to know which parts stood out to you.
- For the new van, can you talk about any savings in fuel or maintenance costs?
 - We're at a point where we can't keep fixing and investing in fixing the current van. We now believe it's an actual safety hazard.

England stepped out, Dean taking over minutes.

- Asking about ASFLS
 - Would essentially pay for itself after a few years. Student jobs would not be cut but it would tremendously increase efficiency (field painting takes hours to complete dependent on the field being painted)
- How much does it cost to rent the equipment and setup 5K
 - \$1700 average ish for run to completely set up. Would be great to reach more of campus 5 or 6 students turned away)
- Cheaper option to afford treadmills?
 - Variety is important. Attempting to get the best life span out of equipment.
 - Some other models are replaced much more often. These approx 7 years old
- Do leach needs to be replaced because it is not functional? How if they are metal bars?
 - Ware on bars (are old). Bars have grip, safety on these is smooth (no ridge for better grip). New ones would be straight silver and requested ones are a little more expensive because they want them to last longer. Some may have to be taken off the floor because so old.

Round Table Discussion:

- Would also be able to work with a lump sum. They know where they'd stick the funds but also have an order of preference.
- 120,000 work hours a year. Over 700 students working for Campus Rec. Budget for OPS wages each year is about 1.5 million.
- Looking for us to cover the 27th pay period for next June, costing \$54,000 just for students. Not requesting pay period coverage for full time staff, just student employees.
- Looking to replace a total of 32 deadlift, multipurpose, and olympic lifting bars for weightlifting.
- Want to replace 3 woodway treadmills. Had them for 7 years, average of 5000 miles ran on a treadmill per year. To the point where their mechanic estimates these to finally die at around spring break. Time for them to go!
- Want a 5k race timing equipment to be used by Campus Rec and other Campus Groups
- Hoping to replace 1 of their 4 12-passenger vans. One of them is being pieced together (wheels are close to falling off)
- Automated Sports Field Lining System. Is GPS-enabled. The newest technology. Saves times and is far more accurate than students painting lines. 35 minutes vs. 3 hours on the test of a women's lacrosse field.
- Fitness Assessment Technology tools to provide fitness patrons and Rec Sports Clients with enhanced fitness training programs. Some pieces date back to the 2000s.
- OPS is paying people which would be a top priority.
- 5K equipment would be incredibly useful. Funding would allow them to cut their expenses over time.
- With campus recreation we could see what we think would create the most impact on students.
- Without funding, they would have to take a lot of stuff out because it is so old.
- 5Ks don't actually benefit the whole student body, as students typically have to pay for the event for fundraising, and that excludes students

MRU - 11:45 AM

Attendance: Levin, Adamyk, Dean, England, Haslett, Porter, Uddin, Webber

- Applied for sweepings for \$15,371.30 in Expense

Questions:

- Minimum amount of radios?
 - Daily shift would use 5 to 6 minimally. Fall season: tailgate season would need all 10 to 11 radios. Have multiple crews going around campus
- Why did you only request one epi-pen.
 - SGA typically funds but the bag that the epi-pen was used in is now out of service until an epi-pen could be funded. This is the generic epi-pen. Cheapest option.
- For response bags, are these being replaced?
 - Funding to restock bags would just restock the stuff so the bag could be used. Would be taken out of use if not restocked.
- Alternate sources of funding?

- Emergency cases, requested donations, help from FSUPD, UHS
- What is your priority?
 - Radios, restock, epi-pen
- Could you go to conferences without funding?
 - Yes but since they have been doing so well hoping for funding to better represent FSU
- Selection process for NCEMSF and ClinCon? Er, since they are coming
 - Would be a registration based, first come first serve.
- Could they go through RTAC?
 - No because they are budgeted. However, they would not have to follow RTAC guidelines if coming through here.

Round Table Discussion:

- Essential service and gave a clear presentation. Most requests were a necessity that would widely benefit the student body
- Need radios
- Saved a student with the epi pen
- ClinCon is in Orlando where EMS organizations compete for a prize. FSU MRU has won this the last 4 years in a row. Have never received SGA funding for this event.
- NCEMSF is collegiate conference for EMS directors to attend (2 directors and a supervisor) to see how they can be better for FSU

Haslett objects

- Not tangible

Roundtable:

- Historical on campus
- Bringing guests to campus is a single time event
- Rather pay in lump sum and allow for organization to decide

Webber: Point of Information: Can CPE go to PAC?

- No

- Planning to possibly fund other categories
- Underfunded in budget
- Are speakers tangible

Carolyn: Point of information: what is the catch on tangible, when we have contractual service category?

- Understanding that sweepings is used for more tangible events,
- This is a one time event, making a project

- Tradition of sweepings is tangible items, but no limits in rules, at the discretion of the committee
- Funding requests in contractual are for three events, two of which are in pair with SJP. RSO is able to request funds through PAC
- SJP as a partner is able to request funding elsewhere

Villacorta: Point of clarification: The payments for contractual will be paying honorarium for the cosponsor SJP event. The other speaker for the stand alone event by CPE cannot go to PAC for funding

Villacorta moves to fund CPE \$1,000 in Contractual Services

- Used for rainforest event, sense unable to go to funding board

Dean Seconds

Roundtable:

- CPE is underfunded
- CPE has been increasing numbers and involvement, should try to support their efforts

- Would rather fund items to support the 50th anniversary, rather than event

Villacorta: Point of Clarification: No guarantee on PAC funding for other partner

- We are sending organizations to other funding resources

Villacorta seconds

Haslett objects

- A lot of money to give to a single organization
- A lot of equipment is not actually broken

Villacorta: Point of Clarification: most of the equipment was last upgraded a long time ago,

lasting for decades. Technology does not support new technology

- The technology will last for years to come
- Would the new technology support the other technology such as vinyl being used
- New technology should be able to support old technology
- As a necessity, a functioning mixing board is not a necessity to run the radio station
- Cuts need to be made, if we have leftover funding, then we can come back

Harmon: Point of Information: Is this a safety issues for broadcasting?

- Yes, as the alert system is used for broadcasting

Weber Seconds

England Objects

- Deliberations recently have been lowballing items in plans to come back and increase funding. To keep precedence
- This is already a \$10,000 reduction to the request
- \$15,000 is a high number for cost, possibly lowering
- \$15,000 is 60% of request, not lowball
- Very high price, possibly lower to a max of \$10,000
- Try to avoid dipping into senate projects
- \$6,000 is a possible number
- Traditionally Spring is the slow season
- Give \$10,000 to hopefully avoid senate projects
