The Florida State University Men's Rugby Club is a highly successful traveling sport club that represents Florida State University in state-wide and national competition. As a member of the Florida Rugby Union, the Florida State Men's Rugby Club has advanced in the playoffs three out of the past four years including making the USA Rugby Elite Eight competing for the National Championship in Santa Cruz, California in 2005. We also regularly play schools throughout the state of Florida such as USF, UCF, FAU, UM, UNF, Embry Riddle, and Eckerd College. As a club, we pride ourselves on playing top competition and as such have scheduled games against other successful universities including Tulane, Auburn, Georgia Tech, University of Georgia, and Top 25 Ranked LSU and University of Tennessee.

Sponsoring the Florida State University Men's Rugby Club benefits the team in many ways. Your money will help support numerous travel expenses that the club must endure on each individual member. These expenses include gas for personal drivers, hotels for overnight stays, and food for the team. Your money will also go towards new equipment that is needed for our club to succeed such as pads, scrum machines, and tackling dummies. Your sponsorship will also help in the development of our elite players and give them the opportunity to represent our club at higher levels and at all-star events both statewide and nationwide. Other items your sponsorship money will go towards are tournament fees, yearly dues to both the Florida Rugby Union and to USA rugby, the ability to host visiting teams in the Tallahassee area, and the ability to tour more around the country and further the success of the Florida State University Men's Rugby Club.

All donations and checks to the Florida State Men's Rugby Club can be written to FSU Rugby. Please contact Justin Gannon at FSURugby@gmail.com for more information.
