**Opening Remarks:**

- Chair
  - Land Acknowledgement:
    - The Student Government of Florida State University acknowledges that it is located on land that is the ancestral and traditional territory of the Apalachee Nation, the Miccosukee Tribe of Florida, the Muscogee Creek Nation, and the Seminole Tribe of Florida. We pay respect to their Elders past and present and extend that respect to their descendants and to all Indigenous people. We recognize this land remains scarred by the histories and ongoing legacies of settler colonial violence, dispossession, and removal. In spite of all this, and with tremendous resilience, these Indigenous Nations have remained deeply connected to this territory, to their families, to their communities, and to their cultural ways of life. We recognize the ongoing relationships of care that these Indigenous Nations maintain with this land and extend our gratitude as we live and work as humble and respectful guests upon their territory. We encourage all to learn about and educate others on the contemporary work of the Indigenous Nations whose land we are on and to endeavor to support Indigenous sovereignty in all the ways that we can.

- **RSO Presentation:**

- Founded in 1947 by Jack Haskin, the Florida State University "Flying High" Circus is an extracurricular activity under the Division of Student Affairs. This program was created to integrate men and women when FSU became a co-ed institution and is still an activity for male and female students to participate in jointly. The only requirement to be a member of the FSU Circus is that one must be a degree-seeking student registered at Florida State University.

- The FSU Circus Performers will be attending a Cirque Du Soleil show. This will benefit the student body because the Performers will be able to learn new tricks and performance styles that will help increase skill and engagement on the Florida State campus.

- **RSO Presentation:**

- Our mission is 1. To promote a greater interest and participation in string and orchestra playing and teaching at the elementary, middle, high school and collegiate levels 2. To promote the highest standards in string and orchestra playing, teaching and string and orchestra teacher education 3. To provide members additional opportunities for community involvement in string and orchestra playing 4. To serve as a coordinating agency for the activities and interests of this group

- As one of the most well-known music education programs in Florida, FSU has been proud to represent ourselves at every annual national ASTA convention since our sponsor Katarzyna Bugaj took over for the esteemed Dr. Allen in 2014. This year we will even have some faculty and members presenting seminars, including College of Music student Carly Fulcher. This year, we would like to represent our university once again at the conference and contribute to the professional development of our music students. This national event presents an opportunity for our members and students to gain invaluable professional development, experiential learning, and connect with the greater community of music makers and enthusiasts.

- **Questioning/Notes: why do you need 7 cars? How big are the instruments? What roads are you taking? What fundraising have you done?**

We decided to cross out 400\$ for travel and brought the 2712\$ for lodging down to 2000\$

- **RSO Presentation:**

- The American Marketing Association (AMA) is the world's largest and most comprehensive professional marketing society. Our AMA chapter here at Florida State is currently ranked #7 out of 388 collegiate chapters internationally. Membership within the American Marketing Association provides students the opportunity for professional development, practical marketing experience, and insights into the industry from current marketing professionals. Along with industry-specific speakers at general body meetings, we also plan local agency tours, corporate travel tours, recruiter socials, and have unique opportunities such as Case Competition and Seminole Solutions. The Collegiate Case Competition is a semester-long project that our team comes together on to strategize solutions for a detailed marketing problem submitted by a sponsoring organization. AMA members work to develop a marketing strategy in this nationally recognized competition and compete for a chance to present at the International Collegiate Conference in Chicago. Seminole Solutions is a unique asset of the AMA as the only student-run marketing agency at Florida State. Our members work with real clients to gain hands-on marketing experience in an agency that most college students don't have going into their first interviews. In addition to the professional side of the organization, the AMA also works to serve as a community for its members to support, encourage, and become resources for one another. We actively hold socials and encourage networking at AMA events.

- We will be representing Florida State University’s Marketing Department and College of Business by working to rank nationally in multiple competitive events and demonstrate our dedication to professional development. Our AMA FSU chapter has received national recognition as top 25 in the last three years and has been ranked top 10 in the past two. We have made a name for ourselves and the university across the country through our participation in the AMA community. Our chapter goals align with those of the COB: to raise the marketing department and the College of Business to premier national status through a variety of unique opportunities to educate and enrich their educational experience at Florida State University. AMA FSU is proud to be an RSO in the College of Business and has served as representatives to alumni and prospective students as examples of excellence. For example, AMA members hosted round tables for Hall of Fame members during FSU COB’s first annual Legends and Leaders day and have previously served as representatives for the college during the Chamber of Commerce’s annual Power Forward Speaker Series for Peter Diamandis. We hope to extend this representation beyond the FSU and Tallahassee community as representatives on a larger national scale. Our AMA members’ involvement also extends beyond just our organization to other areas of the College of Business and the university. Many of our members have more than one major, or don’t major in marketing at all. Our members are leaders throughout Florida State and the effects of their development are not confined to one group, one major, or one college. This opportunity will reinforce the values and priorities that have been instilled in students and push them further towards our collective goals.
