Announcements and Messages:

Old Business:

- None.

New Business:

- **9:00 A.M.** - (Resource and Travel Allocations Committee)
 - Director: Senator Spear, Jr.
 - Treasurer: Santiago Aparicio
 - Opening:
 - Chair Spear and Vice-Chair Santiago are requested \$85,000 for RTAC.
 - Details:
 - Chair Spear walked us through his charts. In the first fiscal year 2014-2015 it was 61 RSO's requesting money and last year it was 52 RSO's. Chair Spear mentioned that there was a decrease; however, in the incoming that year that number will increase. He expects the zero funding to decrease. He did not find the number of organizations zero funded so that is not reflected in his charts.
 - Chair Spear mentioned the second chart explained the total spending of the Budget. He mentioned that they spent more than they were budget and that money was taken from Senate Projects. For every request they get they make a 25% cut right off the top. That helps them make their cuts to make sure every organization get an opportunity to get funds from RTAC. He wants to stay close to what was given to this last year. There was a 30% decrease is the amount funded last year and he asking to get more to sustain what was given around 2015-2016.
 - Chair Spears last chair explained the average spending and there about the same amount of money spent and budgeted.
 - Vice-Chair Aparicio is expecting about 65 RSO's to come to them this year to get budgeted.

Budget Committee Hearing Report
September 22, 2017**

- Vice-Chair Aparicio mentioned that they have no information for groups that were zero funded so that is not reflected in any reports. He placed that emphasis to say that there could have been more groups that came to them and wanted money. They are requesting more money this year because they want to help FSU grow by sending students to various conference, etc.
 - These conferences will allow students to network with professionals and bring jobs back to Florida State.
 - He believes funding more club will overall make the student body better.
- Chair Spear ended with presentation with two thoughts.
 - He encouraged us to read through his packet and told us that RTAC is the best investment for A&S Fees because it allows to send students to network and get full time jobs. He also believes RTAC's purpose aligns with the strategic plan specifically 4 and 5.
 - His second thought was that Amy Hecht, the new VPSA, mentioned the greatest thing about our student body is the success of our students. Chair Spear linked that success to RTAC because they are able to sending students to conferences and more.
- Vice-Chair Aparicio mentioned that we have a campus with so many amazing organizations and that it helps our institution stand out. He is happy to fund whenever necessary.
- Questions:
 - Senator Bolton asked if it was true that they can only request 2,000 dollars.
 - Chair Spear confirmed that this was true
 - Senator Jackson asked about the sharp increase in the estimate spent and the amount they could spent more next year.
 - Chair Spear mentioned it was not about how much they are spending more but the idea that they can fund more and not take money from Senate Projects.
 - Chair Pimentel asked them to elaborate the plan RTAC has to help FSU become a TOP 25 institution.
 - Vice-Chair Aparicio gave an example of two new organizations that were recognized for being great clubs; however, they were not able to attend the conferences. So funding these organizations allows them to these conference and get students with full time jobs. This then would have corporations coming to Florida State to recruit. Vice-Chair Aparicio connected that recruiting to RTAC sending these students to conferences.
- Closing:

- Senator Spear closed by mentioning that it is important that we give our students real world experiences. It is about more than sitting in classrooms but experiences it for yourself. RTAC is one of the best ways to help students achieve that.

 - To support the student employment and programs and services provided by FSU Budget. There are many areas where they can't use A&S Fees; however, they use it for the many areas of the Union. (Staff, Program, and Expense)
 - Senator Bolton asked of the project gain and losses?
 - They work to use the A&S Fees to make sure prices are minimal for students but they must charge students to keep up on the services with the Union. They work to battle the Market Prices. The revenue goes right back to the Union as a whole.
 - Senator Bolton asked if there was a way to get a report to access projections of the Union for the previous year.
 - We were told that will be provided (past years and projections/ pasts gains and loses). A loss of money is a loss of services for the students.
