**Old Business:** None.

**New Business:**

- **Bill 110 (Tabled)**
- **Bill 111**
  - Opening:
    - Randal: Love being here with you guys, but there is a problem. The only FSU student run federally licensed radio station that serves as a voice for FSU might go into debt, and you can stop it. This money will take care of licensing fees. We can help get them there. This multifaceted organization needs to be helped. They need to continue to do great work. Supporting this bill is supporting our students. Yields: 2 min 47 sec
  - TNDQ: None

*Senator gonzales moves to enter roundtable  
Bateman seconds*

- Roundtable:

- Bateman: debt issue, these are for licensing fees correct? If they didn't use this content then they wouldn't need to pay fees right?
- Randall: The alternative to this is just live music and really hustling music around tallahassee, so this is how they are able to play any music they want on the radio. Without this they can't broadcast.

*Bateman moves to call to question*

*Gonzales seconds*

- Closing: Thank you, I think this is a great bill and a great resource.

### **Bill 111 Passes**

- **Bill 113**

- Opening:

- Randall: Thank you, this legislation is a real labor of love. This came after conversations with the director of the victim advocate program. They offer some services: Referrals, counseling, academic advice, medical fees, medical tests, financial aid, course drops. Bridge to university resources, and the difference between them and the counseling center, a real person will answer and even come to you, and make sure you get the help that you need. No other program like this at FSU exists. They also help pay for students' needs for outreach. They need money to help the student body, and you can change that.

- TNDQ: None

*Bateman moves to enter roundtable*

*Rigaduel seconds*

- Roundtable:

- Bateman: Brochures and posters: does not student publications do that for them?
- Randall: no, they can't go through student publications because of their RSO status. In theory they could, but student pubs dont accept requests from outside sga or Rsos. Prob not a way of it happening. It's gotta be now/soon because they are freshmen here now, it is very urgent, especially for when fsu opens back up soon.
- Rigaduel: Brochures sent out in dorms?
- Randall: There are people on campus now who need resources now, so it's got to get done including the dorms.
- Batemen: Promotional items? Is that expense necessary?
- Randall: These items help, for things like stress balls and items to fidget and write with for affected students. It gets the message out and helps people to remind them of it. Journaling and writing down experiences is essential even though they may seem like a not necessary expense.

- Bateman: switch to generic items? Facemask case? I plan on supporting it, just wanted to raise those concerns.
- Riguidel: Branding is definitely important. Facemask case?
- Randall: I just copied the requests, and it functions to secure face mask when not on face.
- 

*Senator gonzales moves to call to question  
Riguidel seconds*

- Closing: Randall: I really appreciate this committee questioning these items and taking the time, but the reason for it is to get the message out about who they are. Thank you for supporting this.
