

**72nd Student Senate
Budget
March 31, 2020**

Call to Order: 8:03 PM

Members Present: Dean, Durham, Fahey, Haslett, Lavender, Long, Pedroso, Rowan, Schaler,

Members Absent: Diaz, Long, Uddin

Members Tardy:

Guests: Christian Sam, Alex Harmon, Parker Shanahan, Ashley Gonzalez

Announcements: None.

Committee Business: Bills 73, 74

Old Business: None.

New Business:

- **Bill 73 (PS: Ready) An allocation of \$5000 from Senate Projects to the Innovation Hub to pay for a CNC router**
 - Opening: Like I told SLAA last month, I've been working with the Innovation Hub for 3 months. We've looked at other possible ways to get grant funding, and I made them aware Senate projects is another way they can get funding. \$10,000 is the entire cost of the CNC router, and this is half. A CNC router is like a 3-d printer but it works the other way. It takes a block of wood or metal, and cuts it down, it's a cheaper process than using a 3-D printer. Material for 3-d printer can get expensive. This piece of technology will be used by thousands of students, they will have it say that it is paid for by SGA. Yields with 2:16
 - **TNDQ:**
 - Durham: How much is in Senate Projects?
 - Ready: Around 12,400
 - Durham: What was the original timeline for CNC router?
 - Ready: This would most likely come and be fully functional on campus in the next Spring.

- *Fahey moves to enter roundtable discussion*
- *Rowan seconds*

- Round Table Discussion
- *Fahey moves to call to question*

- 2:16 Closing: Thank you for all your questions. This will really help out the innovation hub, and is a cool piece to add to their inventory.

Bill 73 Passes

- **Bill 74 (PS: Slimak) An transfer of \$4314 from Senate Projects to Facilities in order to install 2 picnic tables.**
 - **Opening:** Thank you Budget for having me. I've been working on this for a while. This will be creating tables for Legacy Walk. I noticed someone drop mustard on their pants, because they weren't able to sit at a table. The COB offered the breezeway. This will be giving two picnic tables along the walk. This will have four wheelchair accessible spots. Yields with 3:24 to closing

 - **TNDQ:**
 - Rowan: Where exactly are the tables?
 - Sofia: The tables will be near the sidewalk area facing Bellamy. It's a covered area right in front of Rovetta. It is the corner intersection between Strozier and Bellamy. It's at the top of Market Wednesday.

 - *Durham moves to enter roundtable discussion*

 - *Lavender seconds*
 - **Round Table Discussion**
 - Durham: With the state budget, they have funded FSU for a new COB. Im not sure when this will be, but it is Thrasher's retirement wish. If we put new tables in the COB rotunda? I understand the need, but if it's getting torn down what's the point?
 - Slimak: Rovetta is planning on staying there. The Dean says even if we leave, it will still be a great addition to the building.
 - Fahey: Are there people there right now in order to purchase the tables?
 - Slimak: As of my knowledge, everything is on track. We are waiting on Facilities
 - Rowan: The Union is close by, can you address the cost and need for seats?
 - Slimak: There are no tabletops, and the 3 benches are typically full.
 - Lavender: Is the College of Business able to fund the tables?

Slimak: They are not, all of that money is going to the new College of Business building.

Dean: Who is paid that fee?

Slimak: Facilities

Rowan: There are only so many seats, it seems a lot of money for what it is.

Durham: I just want to verify, does it need to have an SGA logo on it?

Slimak: We are trying to get it etched in the tables or put on the side.

Lavender: \$5000 is a lot of money. We have to get a full invoice from the company.

Slimak: The tables are there forever, it is an investment in the university. It is readily accessible. I would be open to looking further into this.

Durham: I just want to say thank you to Senator Slimak, I am a pro of this bill.

Even though it is just 8 seats, it will serve more students in the future. This is truly an investment that will be there in the future. I like sitting outside, the Union will be delayed. I am always impressed with people who have gone through and done the work. I am in full support of this bill. I don't want to keep delaying this, and I think two tables would be good.

Harmon: Is there a possibility of more tables being added?

Slimak: There is a possibility of two more tables being added.

Rowan: Have you looked at cheaper options?

Slimak: These are the cheapest options.

Lavender: I was skeptical, but I think the permanence

Slimak:

Rowan moves to exit roundtable

Durham seconds

Closing: I know this is a big bill to swallow for tables. I am excited to see students use the tables. If you have any questions or would like to reach out, please contact me. Yields remainder of time.
