Applied for Sweepings for a total amount of $1,500
Questions:
1. How will the expenses, from SGA’s budget, be used by BSU? Why would you need funds from Sweepings if you still have money in your budget?
   • The majority of the money we have left from this current year’s budget will be used for events in February for Black History Month. Events will be held every single day until the month is over
   • If we did not request funds from Sweepings we would have to cut some events in February to be able to complete the transition to the new BSU house.
   • Note: Due to Hurricane Irma they were not able to host their pep rally and essentially lost $1,300.
2. Does BSU give money to other black organizations?
   • No, not directly but we offer assistance to see if we can help them get the funds they need.
3. Can you tell us why the vinyl is more expensive? What are the advantages to using it?
   - It would be more expensive because of the size, it would essentially be big enough to cover most of the wall in the new BSU house.
   - We believe this would be more beneficial because it will blend in with the wall a little better. This way when people are adding to the vinyl they can continue to go off the edge and on to the actual wall.

4. What happened to the old BSU house?
   - The old house is being torn down and we are currently collecting artifacts and other things and moving them into the new BSU house.

5. How reasonable/unreasonable would it be to take the physical wall from the old house to put in the new house?
   - They are unsure about the price break down and if this option would be available to them.
