Senator Lansdale: The Student Government of Florida State University acknowledges that it is located on land that is the ancestral and traditional territory of the Apalachee Nation, the Miccosukee Tribe of Florida, the Muscogee Creek Nation, and the Seminole Tribe of Florida. We pay respect to their Elders past and present and extend that respect to their descendants and to all Indigenous people. We recognize this land remains scarred by the histories and ongoing legacies of settler colonial violence, dispossession, and removal. In spite of all this, and with tremendous resilience, these Indigenous Nations have remained deeply connected to this territory, to their families, to their communities, and to their cultural ways of life. We recognize the ongoing relationships of care that these Indigenous Nations maintain with this land and extend our gratitude as we live and work as humble and respectful guests upon their territory. We encourage all to learn about and educate others on the contemporary work of the Indigenous Nations whose land we are on and to endeavor to support Indigenous sovereignty in all the ways that we can.

- Tatiana Coll–Student Senate, Arts and Sciences Seat 8 (spring) (5 applicants)
  - Opening
    - Hi, ok so I am not going to take too long, I know it is Valentine's Day and everyone wants to do activities after this. My name is Tatiana Coll, I am a Freshman here, it is my second semester. I am from Tampa, FL and I went to Plant High School. During my time here, I was the President of our Service Club, and I served on the Mayor's Youth Council. My time during high school was dedicated to community service, I did a lot of outreach. I did not do SGA during high school, but my time was focused elsewhere. So far at FSU, I am a part of the Freshman Class Council, I am on the Student Foundations, a member of Tri-Delta, and I am very

excited to be here. I ran in the Fall election cycle, and I really loved the community, I love the work you all do, and I thought the vacant seat was perfect! Some goals I have so far, is actually based off my sorority's philanthropy. If you don't know what Mara's Voice is, she was here in 2017, her and an FSU professor were killed in a yoga studio in 2019. This was a hate crime towards women, and they both passed away. I feel like not many people in the community really know about that. I am hoping to institute a new presentation in Freshman Orientation, when you go and someone can go tell the Freshman what happened here, talk about Mara's story, how to spot the signs of a man becoming aggressive towards women. These are my goals, and I love this community. I hope you will pass me. Thank you!

- General Questioning
  - Chair Windlan:
    - Considering you are going in for a Spring seat, what do you want to institute during this time?
      - Yes, what I just spoke about is really the main legislation idea I have, about Mara's Voice, and getting this in Freshman Orientation.
  - Chair Salazar:
    - Have you talked with NSFP or anyone about this?
      - Not really yet, but I will definitely be in the works of this soon!

- Opening
  - Hello, so basically HLSU gala is an end of the year celebration, on everything they have accomplished. The final event for HLSU for that academic year. They give out food, and all of it is catered. So in order to get this money we had to transfer from senate projects. We can't get this from PAC or RTAC, because it is already a budgeted organization. So i've already talked with everyone so ya i yield.
- General Questioning
  - Senator Goldstein moves to enter pro con debate
    - Chair Bevis seconds

- Opening
  - So kinda the same thing. HLSU has a lot of members, and in order to clothe those in their merch, they need money. They get money from sweepings, and it is in their expenses and they want to transfer it to their clothing category. So they have more than enough money for it to be transferred, because we want to get more HLSU merch. With that I yield.

    - No objections

The Student Senate acknowledges the importance of the National College Health Assessment (NCHA) in gathering data to inform and enhance health promotion programs, policies, and initiatives on campus and encourages all eligible students to complete the survey before the deadline of March 1st, 2024. **(Referred to Student Life 2.7. Passed Student Life 2.9)**

- Opening
  - Basically, the Director of Health and Wellness in cabinet reached out to me to work on another resolution. It encourages all of the student body to fill out the survey. If you haven't taken the time yet, pls do so. Pls take the time, it does not take time, it really does help our university and other avenues around campus to help better the student life around campus. This helps with adding things on campus, and if you want to make this school a better place, you need to put your opinion into it. It does not take that long to do this, i would encourage you all to fill it out, but ya, this just encourages that.

### Resolution 22

Sponsored by Srivastava (P) Blackwell, Brown, Carr, Castellanos, Emokidi, Goldstein, Gutierrez, Hine, Khosh, Lalani, Lansdale, Lento, Meier, Smith, Vargheese, Velazquez (Co)

This resolution remembers the Marjory Stoneman Douglas shooting and honors its victims. It further condemns gun violence and urges lawmakers to enact gun control. **(Referred to Student Life, Rules 2.7. Passed Student Life 2.9. Passed Rules 2.14)**

- Opening
  - Hi everyone, so the goal of this resolution is to honor the souls we lost on February 14. I am from Parkland, and I went to Douglas. Today is not an easy day for me, or for others. We lost 2 more people from PTSD as well. I know today is a day of love for people, but I want you to remember that for Parkland it is a day of anger, sadness, and a day of pain. Each of these souls had goals, and they could not achieve these because they were killed at a school shooting. The second half of this resolution works to condemn gun violence and push lawmakers to enact gun control to stop events like this from happening in the future.
- General Questioning

- Senator Lalani:
  - Moves to enter Pro Con Debate
  - Senator Goldstein seconds
  - No objections
- Pro Con Debate
  - Chair Salazar:
    - As someone who was born and raised in south Florida and drove past this alot. I want to remind you how dangerous this is, how unprotected some students and teachers are. I remember them talking about the teacher who risked his life to save these students. Thank your teachers and fellow students, and do what is right and please stand up to those who are trying to push guns everywhere. In my opinion this is not the answer, because who killed the kids at this school. Let's be mindful of guns and the threats that they pose to our lives.
  - Senator Garcia:
    - *Inaudible*
  - Senator Khosh:
    - I can't really commend the sponsor enough for highlighting this enough today. I acknowledge those from this community, and others who have gone through this. We need to bring a spotlight on this to lawmakers and allow them to understand that we do not need to be pushing guns everywhere. Please be there for your friends, and echoing what the past Senator said as well!
  - Senator Lalani:
    - Moves to pass my acclimation
    - No objections
    - Passes

Resolution 24      Sponsored by Brown, Larancuent (P) Bevis, Castellanos, Goldstein, Gutierrez, Hine, Lalani, McEnery, Mendez, Srivastava, Stuart, Syska, Valderrama, Vargheese (Co)  
 This resolution acknowledges February as American Heart Month and aims to spread awareness on a topic that affects a significant portion of the US, including our families. As well as providing opportunities for educating the student body to decrease the rates of Cardiovascular Disease on this campus. **(Referred to Student Life 2.7. Passed Student Life 2.9)**

- Opening
  - Hey guys we wrote this on American Heart Month. It was to give awareness on what Cardiovascular Disease is. It not only affects older people but also students. This grabbed my attention. In a study in 180, 84% have at least one factor, and 62% have two. A lot of people don't realize this. We have a lot of orgs on campus helping prevent this, so in case of a cardo attack, students would have knowledge to save this person. Adding on, I want to say it is important to recognize this. Create opportunities for people to educate themselves. On a personal note my grandma has had 4 heart attacks, so pls advocate for us.
- Pro Con Debate
  - Senator Zoluaga:
    - My grandfather passed away from a heart attack and seeing this on our floor is great. I hope this passes!
  - Senator Mendez moves to pass my unanimous consent

- No objections
- Passes

A transfer of \$1,000 from Inter-Residence Hall Council's Contractual Services fund to their Food category. **(Referred to Budget 1.31. Passed Budget 2.2)**

- Opening
  - All right guys, this is just a transfer from contractual to their food category. It is transferring the funds that are going to be used to bring a food truck. February 28. It is a great cause, it's not a lot of money to be transferred that they have and want to use for this great cause.
- General Questioning
  - Senator Goldstein:
    - Moves to enter Pro Con Debate
    - Chair Bevis seconds
    - No objections
- Pro Con Debate
  - Chair Bevis:
    - Moves to call the question
    - No objections
- Closing
  - I yield.

Resolution 18

Sponsored by Ahuja, McEnery (P) Barresi, Carr, Castellanos, Chinn, Daley, Emokidi, García, Grant, Hine, Meier, Rodriguez, Smith, Souvenir, Valdes-Herrera, Vargheese, Windlan (Co)

I am submitting this resolution on behalf of Megan and I where we discuss the decision made by the Board of Governors. We explain how we stand with the student body in expressing our disappointment with their decision to vote in favor of regulations 8.005 and 9.016. **(Referred to Student Life 1.31. Passed Student Life 2.2.)**

- Opening
  - I did not realize it shows up on the calendar, but i'm glad that worked. Essentially the board of governors met here, it was really cool. There was 15 mins of general comment, all comments were against these two regulations. There were so many students who came from all over to talk about their disappointments in these regulations. We wanted to show we heard these students, although we can't change this, we wanted the body to feel supported.
  - Resolution 8.5 removes sociology from one of the general education requirements. A lot of people did not like this, was because sociology is a class where you can learn so much. It is great to make you into a well rounded individual. Secondly, professors who teach this can affect their jobs, it can make them seem not as important, because they no longer have that standing.

- Resolution 9.016 this is the DEI resolution. Basically the board had to officially take this to apply to universities. Talking about funding for DEI organizations and initiatives.
- General Questioning
  - Senator Goldstein:
    - Moves to enter Pro Con Debate
    - No objections
- Pro Con Debate
  - Senator McEnry:
    - I am a social work major, and I think it is kind of disheartening that it is being seen as controversial and I think it is sad that it is not a core class anymore.
  - Chair Khosh:
    - I do want to commend the sponsor for writing this, and making it very well written more factually. As a lot of you may know, anything we pass has to be signed off. She made sure every person involved was ok with this, and we need to shadow that this is the work behind the scenes we should do.
  - Senator Randall:
    - Just to echo, I want to commend the sponsor for writing this. It is important to show that we are representing the student body.
  - Senator Coll:
    - I think DEI is very important. I think a lot of people would agree that taking funding away from this would be very saddening and unfortunate.
  - Senator Souvenir:
    - My friend has gotten into the sociology program and they have already talked about how there has been a decrease in students coming to FSU for these programs.
  - Senator Goldstein:
    - Moves to pass my unanimous consent
    - Senator Mendez seconds
    - No objections
- Closing
  - Feel free to come to me to ask questions!
- Voting Results
  - 42 yes, 1 no, 0 abstentions.
  - Passes.

Resolution 19      Sponsored by Olsen Galvan (P) Ahuja, Barresi, Carr, Castellanos, Emokidi, Garcia, Hellman, Hine, McEnery, Meier, Rodriguez, Windlan (Co)

This is a resolution to extend the loan period of technology from the circulation desk at the library. This is to better accommodate students who are taking morning exams that begin at 7:30 which is a half hour before the circulation desk normally opens. **(Referred to Student Life 1.31. Passed Student Life 2.2)**

- Opening
  - Hi everyone so i'm not going to lie when I presented this, I did not have all the information, so now I have it. This is a resolution commending and thanking the librarians to helping solve the problem, which was the library hours were not really benefiting all student hours. It was an issue, because during finals, you can't check them in the morning. The solution that they brought up was extending

the loan period for laptops. This is basically all about computers having loan of 3 days, going to be on a first come first serve basis, and you go up and ask for them. Limited amount of them, don't think it will be an issue of running out, because they don't really run out.

- General Questioning

- Senator McEnry:

- Moves to amend, In the fourth “where as” can you strike the technology and just put laptops. For Dean of Libraries after the loan period, write and establish a relationship with the student government. Then for it to be it further resolved, add Jeffrey Hipsher and Neelam Bharti.
    - Senator Golstein seconds
    - Found friendly

- Senator Brown:

- Will students receive chargers?
      - It is a part of it. The thing is there are a lot of other questions with this, because chargers have a way of walking away. They have more chargers than laptops, but they are included.

- Senator Hine:

- Originally you wanted it for them open the library early?
      - Yes
    - Follow up:
      - Did they veto this because it is too expensive to pay someone?
        - They proposed the solutions they gave me

- Senator Chinn:

- You mentioned the calculators are off limits?
      - The calculators are worse than the chargers, they walk away. It brings up a lot of issues. Essentially, when someone checks it out, it disappears, they have few calculators so it doesn't make sense for them to extend these, if they believe they will lost more,

- Senator Carr:

- Do they have a fine system?
      - Yes they do, if you don't return they do fine you

- Senator Goldstein

- Moves to enter Pro Con Debate
    - No objections

- Pro Con Debate

- Senator McEnry:

- I went with the sponsor to this meeting, we asked them a ton of questions to figure this out. They were excited, because they wanted to make a relationship with sga, because they have a lot of issues, and they weren't knowledgeable with sga as a whole on how to fix these. They want to use this as a way to get more involved so ya.

- Senator Zoluaga:

- I want to speak in pro, I was one of the few people that have gotten a \$50 fine from the library, so this helps

- Senator Larancuent:

- I was also charged, because I thought they were opening, so I approve.

- Senator Goldstein moves to call the question

- Senator Larancuent seconds
    - No objections

- Closing

- I think I said it all, but if you have questions, reach out. I have all of it written down.
- Voting Results:
  - 43 yes, 0 no, 1 abstentions.
  - Passes.

Resolution 20      Sponsored by McEnery, Rodriguez (P) Ahuja, Carr, Castellanos, Daley, Garcia, Hine, Meier, Souvenir, Teplin, Windlan (Co)  
 This is a resolution calling out both HB599 and SB 1382 for attempting to attack how non-cis individuals can identify within their workplace. These bills would make it so that people, in their workplace, would not be allowed to present their preferred pronouns, if wanted, and have to be referred to by their "at birth" sex. **(Referred to Student Life and Rules 1.31. Passed Student Life 2.2. Passed Rules 2.7)**

- Opening
  - Hi guys, thanks for having me. I thought this was an important resolution to present, because these two bills that were presented in the house in late November last year, would go in effect if passed in July. This is not a lot of time. I thought this was important to address, the LGBTQ population represents a lot of people. We want to create a welcoming environment for these people. It harms all people in Florida, on campus, and so on. They define pronouns as to being assigned to your at birth sex, which is not true.
- Pro Con Debate
  - Pro-Temp Gorelick:
    - I am a part of the LGBTQ community, I am a big supporter of this. I commend you for writing this, if you don't agree with this, let people live the way they want, let them be called what they want. Be nice to people, slay gay people.
  - Senator McEnry:
    - As a member of the LGBTQ, I want to commend the sponsor for writing this, it is very well written. If you don't agree, just be respectful, they still exist. So let's not make their lives harder than it has to be. Make everyone feel supported. I love this.
  - Senator Chinn:
    - Moves to call the question
    - Chair Bevis seconds
    - No objections
- Closing
  - I don't really have anything else, thank you for having me up here, if you want to ask anything I am more than happy to do so. Go noles.
