Student and Non-Budgeted RSO Comments:
Jstreet U: Good evening everyone, my name's Eliana Cooper, and I'm the president of this Jstreet U chapter and its regional chair. With me are other members of our organization. We're here as we're requesting money for an event. We seek to inform the student body about education on conflict, obstacles of peace, and activism to see what we can do to help solve the problems regarding Isreal and Palestine. I'm proud of our growth here in Tallahassee and Florida as we're one of the strongest chapters in America, and we've been seeing more development elsewhere too. We want a Florida workshop to bring FSU students and Floridians to work together and learn. We can help the student body engage in conversations and connections. This is a really exciting opportunity to represent FSU across Florida and to the nation. The Director of Jstreet U is attending this conference, so it is a really important and prestigious event. It will also help display to members of FSU how the national conference was. We need to rent space for this event, and I've secured $3000 already. Thanks for your time and support.

Venezuelan Student Association: Hi, I'm the president of VSA and I'm joined by my fellow exec member Alesia. We're requesting funds for T-shirts tonight. We want to bring the student body and the HispanicX community together. Our group lost activity in 2014, but we're starting up again and wanting to share our culture. Venezuelan identity is at its most vulnerable with its political instability, and we want to stimulate conversations about who we are, our riches, and our culture.

One of the important factors about t-shirts are legitimacy and activity. We need to show we're here to stay. We also want to give back to the Venezuelan community and spread it to others here at FSU. We want to unite a community and bring attention to our union.

Acabelles - Good evening Senate, I'm from the Acabelles, and we are requesting airfare for a conference in Arkansas. We need to be most efficient with travel time, and we hope to represent the student body with a possibility of competing on an international level.

Connor Lynch RTAC - Last night in the Budget Committee Bill 45 was presented and consequently failed. I am here to explain why I believe that is a mistake. As a member of the RTAC committee I believe wholeheartedly that RTAC does fantastic work to better the student body and give RSO's the necessary

funding that they ask for. As Senator Murcia mentioned last night, RTAC has been receiving around 5-7 requests per meeting which is a pretty big increase from previous years. I agree with what Senator Villacorta mentioned last night in Budget about how students should not be punished by senators unwillingness to dip into senate projects. Now I will address some concerns specifically from the minutes of the budget committee meeting. Senator Lavender mentioned that Senate projects should not be used because it would stop new senators from having the ability to do their work. I would now like to direct my attention to the senators inaugurated in the fall. From what I can see based on the record going from the beginning of the 72nd senate until February 12th is that Senator Sojos has by far done the most with 13 Bills sponsored on the floor, followed by Senator Chabot with 2 and Maymon and Absten with 1. To my knowledge more than 4 senators were inaugurated in the fall. My point here is that the new senators won't be doing much with senate projects money due to the seemingly long period it takes for them to do more than just second a motion. Lastly, I would like to point out that Senator Schaler mentioned that RTAC was being fiscally irresponsible and that we "made our bed and now we need to lie in it". Also, that Senator Haslett said that RTAC "Is not prioritizing fiscal responsibility". With this I would like to remind all of you that not only should we be prioritizing the student body but also that the job of the Finance committee is to make sure that the consent resolutions being sent through ARE fiscally responsible. So, if you believe RTAC's spending has been fiscally irresponsible, that is just as much on you guys as it is us. However, I digress RTAC needs this money from senate projects. $2000 is a miniscule number to give to a funding board that literally does nothing beside help students. And as all of you said in your oaths of office you will to the best of your ability preserve, protect, and defend the Florida State University student body. We said that oath and are upholding it, are you? Also come out to RTAC next week!

Closing Announcements:
Senator MacMillan is the new library liaison.

Senator England – On Tuesday myself and Chair Murcia attended an academic honor code meeting. Last semester we voted on updating it, and faculty approved them and they will take effect in Fall 2020. We want to advertise these and let students know about them.

Senator Parker – Shoutout to our veterans, servicemen, and firefigertes. Take care of yourselves and have a goodnight.

Chair Leckie- Judiciary has thirteen things in or going to be in our committee. Come out and participate.

Chair Cohen – To echo Leckie, Finance has 7 pieces of legislation. Historical debt and others will also be reviewed so that finance can be more prepared next year. Come and support our funding boards.

Senator Durham – This week is national eating disorders week. I personally have dealt with a disorder for the past two years, and it helps me to talk about it. With so many people also having these in our prevalent culture, it's important that they do too. I would ignore friends and starve myself for days, but if you or a friend are going through that feel free to reach out to me or the counseling center. You're not alone. So many people are dealing with this, so please become aware as it's so important to spread awareness. It's important and should be more discussed. If you need more info follow NDEA.

Vice Chair Villacorta – Election commission and Supreme court are meeting tomorrow. If you haven't been then check it out tomorrow at 7. It's an interesting time to see how they fill their roles. I extend the invitation for you all to go to RTAC. Also, Acanda is a contestant in the HLSU pageant.

Chair Murcia – It is midterm season, so make sure you drink water and are sleeping. The counseling center is a really great resource if you need to talk to anyone. Always feel free to message me.

Chair Gnanam – Take care of yourselves this week. Also, work with young students and let them know about our resources. Please sign up for Green Dot training. It's an amazing experience. I have a bill about water bottles; Help start this conversation and reach out to me or cosponsor it.

Senator Jacobson – I was talking to a law professor in the 80 Summer Senate. We as senators have a huge impact on our community, and I'm proud of everyone here and this Senate.

Chair Dean – Budget was really cool as we met for over 15 minutes which is really rare. Today is Ash Wednesday, we all come from the Earth and will go back to it. Stay alert on the Corona Virus and its effects.

Senator Gerdts – Florida State University has one of the top teams of the state for 22 years. We didn't win this last time, but we're proud. Be thankful for Checks and Balances.

Senator Weber – Thanks Leckie for the nomination. Shoutout to my sister who made it into FSU.

Senator Donnelly – My frat is having an event on Landis next week with pizza from Munchies. If you're interested come out and pie me as all proceeds go to a good cause. Also, I wanted to address how our Seminole and Greek fraternities recently lost someone to an overdose. I urge you all to take time and reach out to people you haven't talked to for awhile. I lost my cousin who was just 16 to an overdose, and I wish I had done more. Please reach out to family members and strengthen your relationships while you still can; I challenge you. Stay safe and kind during this midterm season as you never know what others are going through as even a conversation can mean the world. You'll cherish those moments.

Clerk Roy – Good Evening Senate**,** I would like to thank you all for your time tonight. In regards to my announcements I would like to reiterate the importance of these purple cards to advertise events to your fellow Senators through my weekly announcements, I am proud to have seen so many organizations speaking on the floor today; it truly does make a difference especially to hear about events happening on our campus firsthand by the people that put it together, and even more so by the organizations requesting PAC and RTAC funding. Speaking as a student here at FSU and as a proud member of the Programming Allocation Committee since last October, our aid and our support means the difference to so many diverse and active clubs and organizations here on our campus. Whether it's funding a Market Wednesday banner or T-shirts for an RSO just starting up or whether it's funding a conference that will leave lasting impacts for our fellow students, we play a large role in shaping student life. It may be easy to write off these funding committees as unimportant because it just takes up ten minutes of our meetings or it's filled with non-Senators, but we aren't doing nearly enough to engage our community and bridge the divide between the student body and the SGA,

and this is by far our greatest effort in doing so.

“We make a living by what we get. We make a life by what we give”
-Sir Winston Churchill

Parliamentarian Alvarez – Katherine Johnson died recently. She did amazing work for NASA and she has no direct impacts on FSU, but she meant the world to many. She did great work for her field, and as an individual she inspired me to dip my toes in astrophysics. There’s only so much time we have. Make sure to spend your time well. Bill 17 is passed and goes through. It regards what the Parliamentarian is, and they now strictly enforce rules of chambers and order during the meeting. Know your rights and powers in the senate. Read through your rules and statutes to help get your work done. You guys are capable of doing great things; don’t take that lightly. Awards don’t change a Senator; It didn’t change me, and I hope it doesn’t change anyone else too. It’s great to have, but it doesn’t change anything. Have a goodnight.

Dr. Acosta –You talked with passion, diligence, and respect during close announcements, it would be beautiful to hear more of that during debate on the floor. It would be a delightful change of pace during a stressful time to adopt these more this semester because you’ve shown what you’re capable of. I won’t be at Senate next week, Jacalyn Butts will be advising the Senate and I know you will be on your best behavior. Thanks to Central Reserves for your meetings, your time, and for even taking a recess. I hope to see you Senators at the Campus Safety Tour.

Jacalyn – I started here at FSU in August. I see some familiar faces from FLI, COGS, etc. I’m glad to see you all and we will have a good meeting next week.

Pro Tempore Harmon – If you would like to help with Social Media then reach out to me. Rules and Calendar please come meet me after. Warren, sorry for not seeing you were here.

President Denton – The Position of Press Secretary is now up. Have your friends apply if interested. Second Committee Chair is happening soon.

Final Roll Call: Murcia, Macmillan, Weber, Acanda, Rowan, Gerdts, Uddin, Villacorta, Selva, Fahey, Schaler, Donnelly, England, Haslett, Gnanam, Brink, Jacobsen, Harmon, Leckie, Parker, Duham, Denton, Adams, Pendleton, Absten, Sojos, Ferguson, Maymon, Dean, Pedroso, Ascanio, Rudolph, Chabot, Daraldik, Mougey, Baxter, Levin, Slimak, Fink, Lavender, Fray, Warren, Long, Porter, Fernsel, Blackthorne, Cohen, Diaz.

9:38 P.M.

Motion to adjourn by Vice Chair Porter and Chair Baxter
