

**72nd Student Senate
Budget
February 4, 2020**

Call to Order: 8:13 PM

Members Present: Dean, Diaz, Durham, Fahey, Lavender, Long, Pedroso, Rowan, Schaler,

Members Absent: Haslett, Uddin

Members Tardy: None.

Guests: Jonathan Levin

Announcements: None.

Committee Business: Bill 30

Old Business: None.

New Business:

- Bill 30: Allocation of \$3,000 from Senate Projects to the Students Veteran Center to Install pull-up bars by Mike Long Track (Amended in SLAA) (Levin)
 - Opening: This would install pull up bars by Mike Long Track. Army ROTC has been mandated a new PT Test, the pull up bars would be closer and allow them to test more efficiently. The old bars are a two minute sprint away, which causes. \$8900 project, the only vendor is out of Panama City. That is the reason for the low quote. Some money will be coming out of Exec, the Veterans Center will be paying the rest. The goal is to have this before Spring Break. The main focus is to allow the Army ROTC to use the pull up bar, but the sponsor has been in contact with the circus, as they will be using the pull up bars as well. Yields with 1:04 to closing.

TNDQ:

Durham: How much is exec putting in?

Levin: \$1900

Durham: Is the Veterans Center covering the rest?

Levin: Yes.

Diaz: Where will the pull up bars be installed?

Jonathan: The grass area next to the bleachers

Rowan: How much is in senate projects?

- Levin: \$1400
- *Long moves to enter Round Table Discussion*
- *Fahey seconds*

Roundtable:

Durham likes the \$3000 number, as Exec is contributing which allows for SGA to contribute \$5000. This is a need. There will be people who question it, but its helpful.

Long-it checks off all the boxes. This is making a big difference for everyone on campus

Rowan: How many people are in ROTC

Levin: A couple hundred students

Schaler: Will the Navy use it?

Levin: Some of them may. The Senate can also go and work out.

Durham: How many bars?

Levin: There will be 12 poles, so 8 bars.

Long: Colonel Francis is impressive.

- Closing: Everyone here is on the same page, please let me know if you have any concerns. Yields remainder of time.
